You can be connected with different

places on the same long distance  
call. Each can talk and be heard

## To Obtain Medical Care

1. Meet a local doctor before illness.
2. Report symptoms early.
3. For emergency treatment when he is unavailable or the condition warrants go to the Emergency Room at the Norfolk General, DePaul or Community Hospitals in Norfolk—Maryview or Portsmouth General Hospitals in Portsmouth. They are fully staffed and equipped night and day for treating medical and surgical emergencies. Many serious conditions are more safely treated there. Your physician may want to meet you there.
4. Note that listings in this section are office numbers. See white pages for home numbers.
5. For information and advice, call Doctors Answering Service—MA 2-5333. A doctor can be contacted in emergencies.
6. Please refer complaints and suggestions in writing to "Professional Relations Committee."

## Emergencies

An emergency may place thousands of people in peril; it may involve only an individual. The smell of smoke or the sound of howlers in the home may create a crisis as real as those of flood, hurricane or earthquake.

All emergencies alike place a premium on communication facilities by which aid may be summoned swiftly. Every telephone has a potential value far outweighing that which is measured by its actual use, because it stands ready even for the emergencies which may never arise, but which are ever-present possibilities.
